

UNIMET - COLUMN GAUGE

Two Input i.e. at a time two air gauges or two probes can be connected

- Unimet Column Gauge one-channel output - bar type electronic readout offers exceptional performance and is intuitive and easy to use.
- This autonomous electronic readout instrument is designed for measuring lengths such as external, internal, step, height, or depth dimensions, as well as distances.
- Inbuilt air transducer or probe inputs as per need
- In-built Air saver facility
- It provides the facility of absolute & comparative types of readings
- Tri-color display; Red, Green, Yellow (RGY) based on the tolerance
- RS 232 data output
- Least count 1 $\mu\text{m.}/0.5\mu\text{m.}$
- 10 measuring programs can be stored in the internal memory
